In geographic areas where members of the Foundation family live, work, or have interests.

VERY IMPORTANT NOTE: We have implemented some critical changes to our funding priorities. We have moved to a model where the engagement of Foundation family members in the work or cause of an organization is an overarching requirement for funding. That said, if none of our family members are involved with your organization, funding is unlikely.

Priority is given to programs and organizations that:

- Promote organization or personal self-sufficiency.
- Are innovative approaches to solving social problems.
- Articulate clear outcomes and are accountable for them.
- Can be replicated or scaled for larger impact.

The Foundation encourages:

- Requests for programs and projects, rather than ongoing operating support.
- Programs that include an element of collaboration or the possibility of using other community support.

The Foundation does not ordinarily provide:

- Major support for the arts.
- Grants to individuals.

- Scholarships and fellowships to individuals (except through colleges and universities).

Important note:

The Foundation requires an independent financial audit from non-profit organizations with annual budgets that exceed \$500,000. An organization with a budget of less than \$500,000 is only eligible to apply for a maximum grant of \$5,000.

Start-up organizations in the first 1-2 years of operations, with no audit, will be considered on a case-by-case basis.
